The company's professional services, adherence to International quality standards, competitive pricing and timely delivery of consignments have earned the respect & admiration from the worldwide customers.

To be the preferred one-stop source, globally, for high quality natural ingredients required in health care, nutritional & personal care products.

To provide highest quality natural bio-resources for human health, in harmony with nature and in a socially & environmentally responsible manner.

Many Customers - Many Countries

Our Range of Products are used as ingredients in formulations, botanicals, food & beverages, functional foods, dietary and nutritional supplements, nutraceuticals, herbal teas, confectionery, restaurants, cosmeceuticals, personal care products, health spas and in other herbal products.

Our Range of Products are being Exported to hundreds of customers in international markets including North America, Europe, SE Asia, Far East, Australia, Middle East, Africa and Japan. Our knowledge about the country specific documentation and other trading processes, enable us to execute international orders with highest level of efficiency.

We build long term relationships and therefore have the patience and maturity to work with customers who are developing new products, even if it means small orders in the beginning. At the same time we can also supply container loads to those who need larger quantities. Our products can be supplied in bulk or packaged as per the requirements of the customers, also with Private Labels.
